## ABC's Programs

## Connecting Industries and Universities

### ABC Science

Aligned with ABC's mission, the **ABC Science** program was created in 2018, an initiative dedicated to encouraging research and knowledge production in Brazil, with essential financial support from companies in the cosmetics sector for academic events.

### MP Box

The MPBox is a box that brings together a selection of current cosmetic raw materials, donated by ABC companies' members, to make easier for university students to learn and work on practical activities. In addition, the box comes with the Guide to Practical Classes: Cosmetology Innovation Manual, an essential material to help prepare formulations in the laboratory.

## ABC's Solutions and Services

A reliable **regulatory cosmetic ingredient database** that works as a **compliance tool** to ensure cosmetic formulations are following the **cosmetic legislation** from **Brazil, Europe and USA**.

A **laboratory fully equipped** and designed to the companies **develop** their **cosmetic formulation** and **perform stability tests** and host the practical classes offered as part of ABC's courses. It also offers a **HairLab** to test performance of hair products.

## ABC's Solutions and Services

It is a program that **connects third parties of cosmetic manufacturing with potential clients** looking for where to produce their cosmetic products.

**B2P is the ABC's sustainability program** that through **Instituto Rever** offers to its company members a solution to **comply with reverse logistics regulations** by the **recycling credits**, providing one of the best cost-benefit ratios on the market.

# ABC Congress

**CBC (Brazilian Congress of Cosmetology)** brings together cosmetic science researchers from national and multinational companies to present and discuss the innovation in the cosmetic science.

The CBC is held in conjunction with FCE Cosmetic where raw materials companies launch their innovative solutions for cosmetic products.
