### Luiz Brandão's Legacy

In the 90s, the visionary Pharmacist Luiz Brandão presented to ABC's board a project that would fill the gap that Brazilian researchers and formulators were faced with:

The lack of a technical-commercial literature, which compiled the monographs and the main active ingredients used in cosmetic products.

By that time, there were only international references, not fully compatible with the Brazilian market.

#### And so, ÍNDEX ABC was created...

- In 1996, the 1st Edition of the book was published in partnership with the author Luiz Brandão. Through the support of the national scientific community, the ÍNDEX ABC soon got the status of an essential work tool for professionals of the local cosmetic industry.
- Findex ABC was recognized as a bibliographic reference by the Brazilian Health Regulatory Agency/ANVISA for cosmetic product registration processes and in 1999, the book's 2nd Edition was launched, with more than 7,000 monographs.

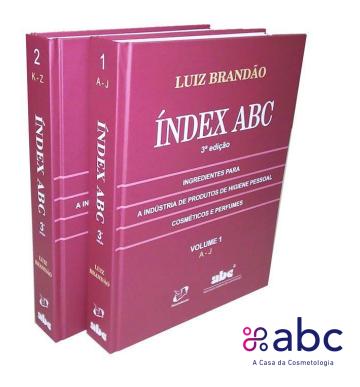

### Luiz Brandão's Legacy

After another decade, Luiz Brandão and ABC updated the ÍNDEX ABC again and launched its **3rd Edition**, in partnership with Pharmabooks, covering a huge number of industries and distributors of raw materials for the cosmetic industry, with more than **15,000 monographs** in alphabetical order by INCI name (International Nomenclature Cosmetic Ingredient).

**Luiz dedicated** this last book **to his son André**, who was beginning his professional career in Cosmetology.

Brandão passed away in 2010, leaving the legacy of this work for the Brazilian Cosmetic sector, which continues today through the hands of his son, with the permanent **ABC's** partnership.

"To my son André who, following my footsteps, motivates me to walk". **Luiz Brandão (in memoriam)** 

# From the paper book to digital...

## **Índex ABC goes... online!**

- √ +37.000 INCI ingredients translated into Portuguese
- ✓ Suppliers List
- ✓ Brazilian Legislation
- ✓ Technical Opinions
- ✓ Technical Notes
- ✓ Anvisa's Guidelines and Handbooks
- ✓ Anvisa's Thematic Library (Cosmetics)

NEO HELIOPAN® BB	SYMRISE AROMAS E FRAGRÂNCIAS LTDA.		Indisponível

#### How to use the Regulatory Assessment tool:

First, you input the ingredients of the formulation and its quantities, and then, with a single click, the program will inform you whether each ingredient in the formula is subjected to regulation or not.

If that's the case, the program will show the requirements for the regions: Brazil, Europe and the USA.

Based on this information, the formulator will be able to assess whether the formulation is compliant with the regulations of the country where the product will be launched.

#### **Important:**

- ✓ The formulation is never saved in the Índex ABC Online!
- ✓ However, you can generate a pdf with the information to keep it.

#### Regulatory Assessment tool:

Fill in the Formulation name, the ingredients and their percentages.

Informações Regulatórias dos Ingredientes da Fórmula

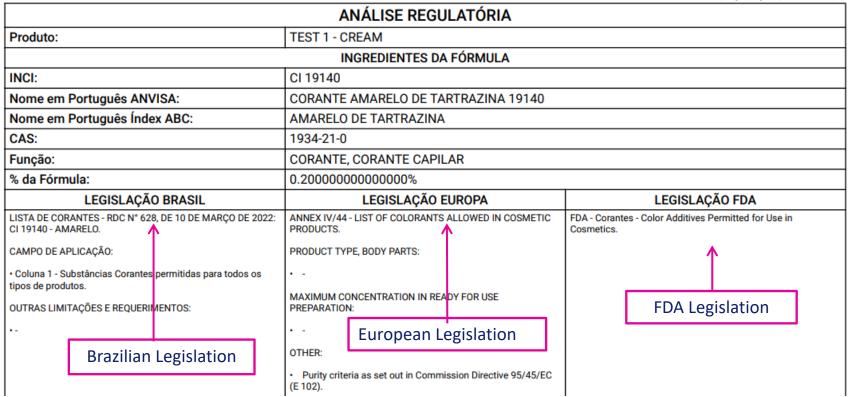

**Regulatory Assessment:** This tool creates a pdf file with all the regulatory information for each ingredient in Brazil, Europe and USA.

ATENÇÃO: A fórmula inserida é de responsabilidade do usuário. A ABC não se responsabiliza pelo conteúdo da fórmula inserida. As informações regulatórias servem somente como fonte de consulta, devendo o usuário buscar as legislações pertinentes.

07/02/2024 19:05

And what does it mean for your **Business?** Multi-Region Regulatory Info in just one place, so you'll be able to formulate according to your Target Market!!

#### Label Ingredients List

Using this tool, you can have the product ingredients list in descending order, by INCI Name and

also by the translations into Portuguese - ANVISA's and ours!

**Important:** you must check if there are **allergens** in the fragrance and declare them on the label as provided for in the "List of Substances which cosmetic products must not contain except subject to the restrictions laid down"

The largest guide to cosmetic ingredients

### **ABOUT THE TRANSLATIONS:**

The translations provided in Índex ABC Online are being adapted to the new rules proposed by Anvisa and so they are not yet exactly the official names. We are working in order to harmonize all translations and criteria, and also to help ANVISA to include all names in Portuguese.
